P08-012

County of San Diego

STORMWATER INTAKE FORM FOR DEVELOPMENT PROJECTS

This form must be completed in its entirety and accompany applications for any of the discretionary or ministerial permits and approvals referenced in Sections 67.803(c)(1) and 67.803(c)(2) of the County of San Diego Watershed Protection, Stormwater Management and Discharge Control Ordinance (WPO).

STEP 1: IDENTIFY RELEVANT PROJEC	INFORMATION	
Applicant Name:		Contact Information:
VEKIZON WIRELESS		760. 484. 8881
Project Address:	APN(s):	Permit Application #:
SUTHERLAND ARNE	246-061-23	108-012
STEP 2: DETERMINE PRIORITY DEVEL	OPMENT PROJECT STATUS	
WPO Section 67.802(w) defines the criteria for you answer "Yes" to any of the questions be Management Plan (SWMP). If you answer "No" SWMP.	to all of the questions below, your project	et is subject to review and approval of a Minor
Residential subdivision of 10 or more dwelling	g units (Single-family, Multi-family, Condo,	or Apartment Complex) Yes (NO)
Commercial development that includes devel	lopment of land area greater than one (1) a	acreYes (No)
3 Industrial development greater than one (1) a	cre	Yes (No)
4. Automotive repair shop		Yes (No)
5. Restaurant or restaurant facilities with an area	a of development of 5,000 square feet or g	reaterYes (No)
6. On a steep hillside (>25% natural slope) AND grading of any natural slope >25% (1)		
7. Located within 200 feet of an Environmentally surface or increases the area of imperviousness	r Sensitive Area <u>AND</u> creates 2,500 square s of a site to more than 10% of its naturally	e feet or more of impervious occurring condition (1) (2) Yes No
8 A parking lot that is 5,000 square feet or great	ter <u>OR</u> proposes at least 15 new parking s	tallsYes (No)
9. Streets or roads that create a new paved surf	ace that is 5,000 square feet or greater	Yes (No)
10. Retail gasoline outlet		Yes (No)
In lieu of a Major SWMP, Ministerial Permit Application Stormwater Management Plan upon approval of a county of A County technician will assist you in determining wheth	the questions, please complete a	Major SWMP for your project.
Instructions and an example of the form can be	downloaded from http://www.co.san-diego	o.ca.us/dpw/watersheds/land_dev/susmp.html
If you answered "NO" to all of the que instructions and an example of the form can be	estions above, please complete a	Minor SWMP for your project.
STEP 3: SIGN AND DATE THE CERTIFIC	CATION	
APPLICANT CERTIFICATION: I have read an for managing urban runoff, including stormwater has been completed to the best of my ability a compliance with the County's WPO and Grading desist orders, or other actions.	nd understand that the County of San Die r, from construction and land development and accurately reflects the project being g Ordinance may result in enforcement by	proposed. I also understand that non-

MINOR STORMWATER MANAGEMENT PLAN

This Minor Stormwater Management Plan (Minor SWMP) must be completed in its entirety and accompany applications to the County for a permit or approval associated with certain types of development projects. To determine whether your project is required to submit a Minor or Major SWMP please reference the County's Stormwater Intake Form for Development Projects. Minor SWMPs are typically required for building and minor grading permit applications and certain discretionary permit applications (See note #1 on page 7).

Permit Application Number:			APN#: 246	6-061-23	
Project Description: CONCRETE BLOCK ENCLOSURE WITH 16'0" X 11'6" MODULAR BLDG AND 40'0" HIGH MONOBROADLEAF		Project address or location: SUTHENLAND DRIVE RAMONA, CA 92035			
		Project Contact & Phone #: RICHAND MARUN 760. 484: 888/			
		Square Foot of Improvements:	Estimated project start date:	Estimated project finish date:	
Total Pr	roject Site Area/	4.9 (Acres) or ft²)			
Estimat	ed amount of disturbe cre, you must also pro	ed acreage: <u>900</u> (Acres of ovide a WDID number from the SW	RCB) WDID:		
Comple construc		ne calculations below to determine	the amount of impervious surface	on your project before and after	
A.	Total size of constru	action site: 14:9 (Acres or ft	(2)		
B.	Total impervious are	ea (including roof tops) before cons	truction (Acres or ft ²)	
C.	C. Total impervious area (including roof tops) after construction/84 (Acres off2)				
Cal	culate percent imper-	rious before construction: B/A = -6	201 %		
Cal					

STEP 2. IDENTIFY CONSTRUCTION STORMWATER BMPs

Unprotected construction sites have the potential to discharge sediment and other pollutants into local waterways. All construction projects are required to reduce pollution to the maximum extent practicable by implementing best management practices (BMPs). Sections 67.806 (General Best Management Practice Requirements) and 67.811 (Additional Requirements for Land Disturbance Activities) of the County of San Diego Watershed Protection. Stormwater Management and Discharge Control Ordinance (WPO) outline the requirements for Construction Stormwater BMPs. There are five categories:

- 1 Erosion control practices
- 2. Velocity reduction
- Sediment control practices
- 4. Offsite sediment tracking control
- 5 General site and materials management

BMPs from each of the five categories must be used together as a system in order to prevent potential discharges.

If you answer "Yes" to any of the questions below, your project is subject to Table I on the following page (Minimum Required Standard Construction Stormwater BMPs). As noted in the table, please select at least the minimum number of required BMPs, or as many as are feasible for your project. If no BMP is selected, an explanation must be given in the box provided. The following questions are intended to aid in determining construction BMP requirements for your project.

STEP 3. IDENTIFY LOW IMPACT DEVELOPMENT BMPs

WPO Section 67.806(c)(2) requires all development projects, regardless of priority, to implement Low Impact Development (LID) BMPs. The goal of the County of San Diego's LID program is to protect water quality by preserving and mimicking nature through the use of stormwater planning and management techniques on development sites. Table II contains LID planning and management practices which are outlined in detail in the County of San Diego Low Impact Development Handbook. You are required to select a minimum of two LID Planning Practices and at least one LID Management Practice to reduce runoff from your site, and are encouraged to select additional BMPs as applicable.

TABLE II. MINIMUM REQUII	RED LOW II	MPACT DE	VELOPMENT BMPs
Minimum Required Low Impact Development (BMPs)	County LID Handbook Detail	BMP Selected	Each selected BMP must be shown on the Plan. If No BMP is selected, an explanation must be provided.
LID Planning Practices (Reference Section 2.2 of	the County	LID Handb	ook) (Choose at least two)
Conservation of Natural Drainages. Well Drained Soils and Significant Vegetation	2.2.1	X	
Minimize Disturbances to Natural Drainages (e.g. Creek Setback)	2.2.2		
Minimize and Disconnect Impervious Surfaces (e.g. Preservation of existing trees/infiltration basins)	2.2.3		
Minimize Soil Compaction (e.g. Reduce Overall Areas of Soil Disturbance)	2.2.4	*	
Drain Runoff from Impervious Surfaces to Pervious Areas (e.g. Cluster Development to Preserve Open Space)	2.2.5		
LID Management Practices (Reference Section 3	of the Coun	ty LID Han	dbook) (Choose at least one)
Hydrologic Design (e.g. Infiltration, Biofilters, Vegetated/Rock Swales)	3.1		
Permeable Pavement Design (e.g. Pervious Concrete, Brick/Natural Stone Pavers, Granular Materials)	3.2	*	
LID Road Design (e.g. Curb Cuts, Concave Median)	3.3		
LID Parking Lot Design (e.g. Reduce Impervious Surfaces)	3.4		
LID Driveway, Sidewalk and Bike Path Design	3.5		
LID Building Design (e.g. Cisterns, Rain Barrels, Vegetated Roofs)	3.6		
LID Landscaping Design(e.g. Street Trees)	3.7		

STEP 4. IDENTIFY POST-CONSTRUCTION (PERMANENT) BMPs

WPO Section 67.806 (c)(1) requires development projects with the potential to add pollutants to stormwater or to affect the flow rate or velocity of stormwater runoff after construction is completed to employ post-construction (permanent) BMPs, as feasible, to ensure that pollutants and runoff from the development are reduced to the maximum extent practicable. Using Table III below, select the post-construction BMPs that will be implemented on your project.

TABLE III. POST-CON	STRUCTION (PI	ERMANENT) BMPs
Best Management Practices (BMPs)	CASQA Stormwater Handbook	BMP Selected	Each selected BMP must be shown on the Plan. If No BMP is selected, an explanation must be provided.

SECTION 5. CERTIFICATION

The applicant must sign the following certification before a Permit will be issued.

I have read and understand that the County of San Diego has adopted minimum requirements for managing urban runoff, including stormwater, from construction and land development activities. I certify that the BMPs selected on this form will be implemented to minimize the potentially negative impacts of this project's construction and land development activities on water quality. I further agree to install, monitor, maintain, or revise the selected BMPs to ensure their effectiveness. I also understand that non-compliance with the County's WPO and Grading Ordinance may result in enforcement by the County, including fines, cease and desist orders, or other actions.

Applicant.
